Hi, Mom and Dad!

We’re enjoying ourselves so much on this camping trip! Right now I am sitting at the table, looking at the river. The river is flowing quickly by. The water is making a pleasant sound. So are the birds singing in the trees. A soft breeze is moving the leaves.

Jimmy and Sue are playing on the beach, next to the river. They are finding pretty rocks to bring home. Jimmie is also looking for bugs. Sue does not like bugs, except for butterflies. She is happy because a butterfly is flying by.

I am watching the children and writing to you. Maybe next time you can come with us!

Love, June

P.S. How is your project going, Dad? Are my brothers helping you? I hope you are all feeling well!
